N/A	Parent Governor Vacancy	N/A	N/A

#### **Diane Quigley**

##### **Governor in Charge of Geography & History**

After serving a long period as a Hull governor at a local secondary school, I took a break before joining Marfleet's governing body in 2009. I have had links with the school for many years in my employment as HR Manager with Fenner Dunlop Ltd at the factory adjacent to the school, so was pleased to be approached to join the school's governing body.

I was elected to the post of Chair of Governors in 2011 and am a member of both the committees (Curriculum & Standards and Finance & Personnel) through which we conduct the majority of governors' business.

As the mother of two daughters now in their 20s in whose education I always took a close interest and involvement, I enjoy this opportunity to make a contribution to the development of the next generation through their school years.

#### **Neil Anthony**

##### **Governor in Charge of Literacy, SEN & Attendance**

I live in East Hull and have been a Governor for a number of years. I am currently the Vice Chair. I have in the past served on the governing bodies of Malet Lambert, David Lister, Gillshill Primary and the White House.

I have worked at Hull City Council as a Social Worker and Manager with experience in working with Children, Minority Ethnic Groups and Adults. I have been a Lecturer in Social Work at the University of Lincoln, Board Member of Humberside Probation Trust and currently serve as a Magistrate in Hull.

I bring skills in problem solving, planning, human resources and working within a team. I applied to become a Governor because I believe in helping our children to gain the best possible all round education and that this is a partnership with parents. I have special interest in safeguarding and special education needs.

**Paul Hussey**

**Governor in Charge of Health & Safety, Early Years & PE**

I am one of the parent Governors at Marfleet Primary School. With a daughter currently in year three and a son in FS2; I have a vested interest in ensuring the school is doing the right thing by its pupils and their parents/carers.

My role involves attending regular meetings with representatives from the school and other Governors to be informed about, discuss and question issues affecting the school, how it performs, what it does well and what challenges it faces.

I am also responsible for link subjects where I go into the school and talk to the lead staff about what they are doing to ensure our children are being taught in a positive learning environment and to provide an 'outside of school' perspective on how that looks to us as parents. My link subjects are PE, Health & Safety and Early Years Foundation.

**Stephanie Anderson**

I have been appointed as a Co-opted Governor at Marfleet and this is my first role as a school Governor. My role as a Governor involves oversight of Science and Computing at the school. I am also a member on the Finance and Personal Committee.

I have a keen interest in the school, which my niece and nephew both attend, and I want to make sure that they and their fellow pupils have the best education available to them.

I work for Hull City Council within their regeneration team and have previously worked on redeveloping the city's Secondary and Special schools. In my current role, I am working on redevelopment projects that will deliver improvements for Hull as part of our year as UK City of Culture.

**Margaret Shillito**

**Governor in Charge of Numeracy and Languages**

I live in East Hull and have been a governor with Marfleet Primary since December 2016. I have 2 grown up children who both went to both primary and secondary schools in Hull. I took a keen interest in their schooling and when the opportunity arose wanted to contribute to the development and wellbeing of our younger generation.

I retired from full time employment in July 2016 having worked for Humberside Police for almost 30 years; I worked in a financial and HR Resource Planning role. The skills accrued in these 2 key areas of work are, I believe, a suitable match for supporting Marfleet Primary in its everyday work and its continued development under Academy status.

I am responsible for link subjects of Numeracy, I have always enjoyed working in this area and I am learning a whole new way of teaching key skills; a long way from my school days of reciting time tables every morning. My other link area is Languages, I have really enjoyed sitting in class with the children trying to improve my rusty skills.

During the last 18 months I have really enjoyed going back to school and hope to continue my association with Marfleet Primary into the future.
